This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

PREFACE.

In recent years many cities and towns in this country, more especially in New England, have become interested in collecting and preserving historical data. Communities which have not been indifferent to progress in other matters have evinced a strong desire to gather the scattered threads of historic value, cherishing the hope that from the tangled skein might be evolved the story of a people's worth.

In cities and towns which possess abundance of material for civic pride, this spirit has become a settled policy and the printer's art is being freely used to perpetuate the records of the past.

For many years past, the necessity of copying and preserving in some permanent form the early records of the Town of Cambridge was evident to any person who had occasion or desire to scrutinize the original records.

That this City possesses records which have successfully survived the occurrences of two hundred and sixty years is indeed a source of congratulation, but an examination of the pages reveals the ravage of time, and the probability that in a few years practical use of these records will be impossible.

Mr. Walter W. Pike, late City Clerk, was fully cognizant of the need of preservative action, and requested of the City

Council authority to commence the work of copying and printing. This request met with a hearty response, as is hereafter recited, and the work was begun with an ardor and interest which bespoke its rapid and successful completion.

By the death of Mr. Pike, however, the task of continuing a work which had been so well begun necessarily fell upon his successor in office.

In his inaugural address, delivered January 1, 1894, His Honor, Mayor Bancroft, recommended that the expediency of publishing the old Records of Newtowne and the Town of Cambridge, together with the Records of the Proprietors of Common Lands, be considered by the City Council. Acting upon this recommendation, the matter was intrusted to the Committee on Printing for that year, — Aldermen Bleiler and James, and Councilmen Reid, Allen, and Whitmore. This Committee, believing that preservation in type of these old records of the early town was of paramount importance, and after careful deliberation, reported favorably, as the following order passed by the City Council on March 15, 1894, at its request, will show, viz.: —

"*Ordered:* That the City Clerk be authorized to prepare a printer's copy of the Proprietors' Records of Cambridge suitable for publication, and at an expense not exceeding the sum of five hundred dollars, the same to be charged to the appropriation for Incidental Expenses."

Under the direction of Mr. Pike, then City Clerk, the task of preparing a correct copy of the Records of the Proprietors was immediately commenced.

The printer's copy from the pages of the original record was prepared by Miss Sarah S. Jacobs of this City. Her great experience and knowledge of old town methods rendered her familiar with the demands of the work, while her intelligence and readiness in deciphering the old manuscript insured a correct translation of the original text. Entirely in sympathy with the project of printing the old records of Cambridge, the preparation of the copy, laborious and irksome though it was, has been on her part largely a labor of love, — a fact conclusively proven by a careful examination of these pages.

Besides the preparation of the printer's copy, and of the indexes, Miss Jacobs has also read and compared the pages of proof matter, — no small task when it is known that every word has been scanned in order that not a letter or punctuation-mark should differ from the original manuscript.

Before the close of the year 1894 the copy was completed, and on May 15, 1895, Mayor Bancroft approved an order of the City Council, authorizing the City Clerk to cause to be printed one thousand copies.

A contract for printing was executed with the "University Press" of this City, and the work has been steadily pushed to completion. The excellent typographical appearance of these pages is due to the foresight and skill of the members of this printing-establishment, who have suggested freely of their knowledge during the progress of the work.

The original Records of the Proprietors are contained in three volumes. The first volume embraces the period from 1634 to 1741, and contains a few detached records as late as 1808.

There is also a separate record at the end of the volume, extending from 1636 to 1697. The second volume embraces the period from 1751 to 1773. The third volume embraces the period from 1784 to 1829.

In 1841, by order of the Selectmen, a transcript of the original records was made by Rev. Lucius R. Paige, then Clerk of the Town. This copy has been of very great assistance in the compilation of the present volume, although its value as a literal transcript is diminished on account of its modern orthography.

For a clearer understanding of the scope of this work, and of the signs used in printing, the following explanatory remarks are made. It has been the intention to present in this volume *all* and the *same* information which a perusal of the manuscript would present to the reader. No attempt has been made to modernize the text, or to make corrections of any description. From page 1 to page 391, the book is a reproduction of the originals, except the introduction of the title, paging, and explanatory marks and foot-notes.

Throughout this volume the dates of the entries do not appear consecutively in all cases, but the dates are published in the exact order in which they appear in the originals. It has not been deemed advisable to place them in consecutive order, except when such order was in agreement with the original text.

The figures at the top of the pages indicate the paging of the transcript. The heavy figures enclosed in brackets represent the paging of the original book in its present condition.

The title " Proprietors' Records " has been used, in the belief that the appearance of the book would be thereby improved.

Brackets enclosing a blank space, thus, [ ], signify that something is missing from, or illegible in the original. Carets, ʌ, show that a letter or letters in a word are missing. Whenever a star, *, appears on a page it refers to a foot-note on that page.

In the original records, pages 115, 116, 158, 159, 160, 290, and 291 are blank, and no corresponding heavy figures in brackets appear in the transcript, nor is there an explanatory foot-note. Page 171 is repeated both in the original and in the copy. With these exceptions any changes from the rules herein stated have been noted in foot-notes and indicated by stars.

On page 367 is printed what is marked as page 30 of the original Volume No. 2. This placing agrees with the manuscript as it *now* exists, although there is a doubt of its correctness.

With these explanatory remarks, it is believed that an intelligent perusal of the volume is within the reach of the reader.

[294] Cambridge August 19th 1767.

At a meeting of the Selectmen of said Town upon application made to thim by the Revd Mr Daniel Rogers of Littleton giving said Selectmen to understand that he Consents to fence out a way in his farm Scituate lying & being on the Rocks in said Cambridge formerly belonging to the Revd Mr John Whiting of Concord for the accomodation of Mr James Perry & others in Consequence of their desire & pursuant to an Antient Vote of the Proprietors in said Town, where no way hath been laid out.

The sd Selectmen upon mature Consideration had made Choice of the Honble William Brattle Esqr & Capt Ebenezer Stedman; the Revd Mr Danl Rogers made Choice of Capt: Ephraim Frost junr & Mr William Dana both Selectmen of said Cambridge to joyn with the first named Selectmen; the said William; Ebenezer, Ephraim & William to be the Committe to lay out said way for the purpose aforesaid; The Selectmen & Committe are very Sensible that on the 10th of January 170⅔ there was a Similar Application to this made by Mr Thomas Whittemore a Tenant on said Whitings Farm, now said Rogers's, But not by the said Whiting that we could learn Either by the Proprietors Records or any otherwise, nor doth it appear that Application was then made to the Selectmen by any other person living, but by the said Whittemore; who Considered as a Tenant had no Right to apply or the Selectmen to Grant his Request & poſsible the whole was done without the said Whitings knowledge; yet so it was a way was then laid out in Consequence of said Application through sd: Whitings farm, now said Rogers's on the Rocks aforesaid, But the way was never fenced out or Trod to this day that any one living can tell, for where said way was then laid out (Vizt) from the Road leading from Menotomy to Watertown to Nicholas Feſsendens Corner cannot poſsibly be aſsertained in the whole, But by that part of said way which is known it manifestly appears that it

cant now nor Could it ever accomodate any persons land that way, which poſsibly might be the Reason why it never was used or fenced of; Wherefore upon the whole the same Cannot in law or Equity be looked upon as a way according to the True Intent & meaning of the Vote of the Proprietors aforesaid any more then if it had never been layed out, therefore in lieu thereof, & that the said James Perry & others might be accomodated with [295] a way through s^d^ Rogers s land on the Rocks afores^d^ formerly s^d^ Whitings agreable to the True Intent & meaning of s^d^ Proprietors Vote as afores^d^

We whose names are under written a Committe aforesaid for the purpose aforesaid Do this 19th of August 1767. hereby order & Determine that the paſsage way through said Rogers's farm on the Rocks aforesaid formerly said Whitings land for the accomodation of the said James Perry & others in lieu of the way aforesaid be as follows, (Viz^t^) To begin at the Stone wall near to the Gate where there are two horse Blocks one Standing on the Kings way leading from Menotomy Meeting house to Watertown; the other Standing in Mr Rogers's Pasture leading to the s^d^ Perrys house to begin from the said Rogers's Stone wall near to said Gate & on the Right hand thereof leading to said Perrys house measuring Two Rods from said Wall towards the opposite Wall thereto & so Runing Exactly as said first mentioned Wall Runs to the Corner thereof, & from thence near Strait to a Stake & heap of Stones, from thence Strait to an other Stake & heap of Stones, thence upon a Range to an other Stake & heap of Stones near a Bryer Bush; thence to another Stake & heap of Stones Two Rods from Mrs Mercy Perrys wall & near to her Mansion house, two Rods S Westerly from said mark or Bondaries, till comes to the last mentioned Boundary, which is to Run to said Wall till meets with the said James's Wall, & so it is to Run two Rods distant & from his wall till it comes to Nicholas Feſsenden's Corner formerly so Called, now Zachariah Hill's Corner or dividing line between him & the s^d^ James; & from said Corner it is to Run two Rods upon & from said Hills land & no further, when the Road or paſsage way through said Rogers's Pasture or land is hereby to Terminate agreable to the several Stakes & heaps of Stones Set up by us the Subscribers which are to be Two Rods & no more to said Mercy Perry, James Perry & Zachariah Hills Walls aforesaid.

To all which said Rogers & Perry both personally present were well Satisfied & agreed

[299] At a meeting of the Selectmen of Cambridge June 14. 1797. Voted, That Maj. J. Wellington & Wm Locke be a Committee to join with Mr George Prentice & Samuel Butterfield, at the request of Mr Noah Ruſsell (pursuant to a Vote of the Proprietors Nov. 20. 1689) to view two lots of land now owned by said Ruſsell in the second division on Cambridge rocks so called & (if need be) to stake paſsages thro' the same; no paſsage to be leſs than two rods wide; and the said Committee are to make return of their doings thereon to the Selectmen as soon as may be — The same Committee were also appointed to view a lot of land belonging to Jonathan Robbins, at his request adjoining to Noah Ruſsells'.

Extract from the Selectmen's Records
Timothy L. Jennison Town Clerk

Cambridge June 27. 1797.

Agreeable to the annexed Instructions, we the Subscribers have been & viewed one lot of land belonging to Noah Rufsell on the second division which lot was according to the best information now to be obtained was laid out to one Blowers & we find that said Blowers' lot laiys at the head of a lot laid out to Lieut. Remington in the first division from the road that was formerly laid out from Watertown line to Cooks Mills. We also find, that about the year 1726. that a Committee was on said Remington's lot & did lay out a road through the same in order to accomodate said Blower's lot, & from a change of property we find that it is not necefsary to continue said road any further, nor to have a pafsage laid out through said Blowers or Rufsell lot.

July 3. 1797. We also proceeded to view Two lots on said second division one belonging to Jon.ª Robbins the other to said Noah Rufsell, which two lots, we beleive, was formerly laid out to Richard Cutter & one Swan, & are of opinion, that a pafsage way thrô said lots is necefsary to be laid out & have staked out the same as follows, Viz. Beginning at the head of a lot in the first division, belonging to Samuel Rufsell, being the Northerly of said pafsage and continuing the same course at the head of Ephraim Cook's lot as the Wall now stands, untill it comes within Two rods at the westerly side of said Noah Rufsell's lot to a stake & stones; then turning Southerly at the side of said Rufsell's lot about four rods to another stake & stones, said pafsage not ^ be lefs than two rods wide, and are also of opinion, that the said Robbins & Rufsell may inclose the rest of their lots. —

On the motion of Mr Nehemiah Cutter, that a Committee may be appointed (pursuant to a vote of the Proprietors Nov. 20. 1689) to view a certain lot of land lying on Cambridge rocks, & is the Eightieth lot, & was originally laid out to Edward Pelham and contains twenty-four

Acres; a part of which lot now belongs to said Cutter. The Selectmen have appointed Capt. Nathl P. Watson to join with William Winthrop Esq. appointed by said Cutter to view the land aforesaid, and (if need be) to state paſsages through the same; no paſsage to be leſs than two rods wide; and the said Committee are to make return of their doings herein, to the Clerk of the Proprietors of the Common lands, with all convenient speed.

By the Selectmen,
(Signed) Tim^o. Fuller, Clk

In pursuance of the within appointment, we the persons therein named, have been on, & carefully viewed the land belonging to Nehemiah Cutter, it being a part of the Eightieth lot in the first division, laid out to Edward Pelham, & having maturely considered the neceſsity of laying out, or stating a paſsage through the same, are clearly of opinion, that in our judgment, there is no neceſsity of any paſsage being stated thrô the land belonging to said Cutter, which is abovementioned
